

ON CERTAIN SUBCLASSES OF p -VALENT FUNCTIONS

M. K. AOUF, R. M. EL-ASHWAH, AND AHMED M. ABD-ELTAWAB

Abstract. This paper gives some inclusion relationships of certain class of p -valent functions which are defined by using the new linear operator $\mathfrak{R}_{\beta,p}^{\alpha,\gamma}$. Further, a property preserving integrals is considered.

Mathematics subject classification (2010): 30C45.

Keywords and phrases: Hadamard product, linear operators, Jack's lemma, inclusion relationships..
