

WEIGHTED SHARING OF NON-LINEAR DIFFERENTIAL POLYNOMIALS SHARING SMALL FUNCTION WITH REGARD TO MULTIPLICITY

HARINA P. WAGHAMORE AND S. RAJESHWARI

Abstract. With the notion of weighted sharing values we study the uniqueness of meromorphic functions when certain non-zero differential polynomial share a small function with regard to multiplicity. The result of the paper improve and extend some recent result due to Abhijith Banerjee and Pulak Sahoo [3].

Mathematics subject classification (2010): Primary: 30D35.

Keywords and phrases: Meromorphic function, weighted sharing, nonlinear differential polynomials etc.
