

## STRONGLY SEPARATELY EQUICONTINUOUS FAMILIES OF FUNCTIONS ON $\ell^2$

CHRISTIN AGUSTIS, ATOK ZULIJANTO AND HADRIAN ANDRADI\*

*Abstract.* In this paper, we introduce the notion of a strongly separately equicontinuous family of functions on  $\ell^2$ . We establish several theorems analogous to classical results on equicontinuity in this new setting.

*Mathematics subject classification (2020):* 26B05, 26B99.

*Keywords and phrases:* Strongly separately equicontinuous, equicontinuous, strongly separately continuous.
