

## ON A VARIANT OF THE JENSEN–MERCER INEQUALITY FOR OPERATORS

A. MATKOVIĆ AND J. PEČARIĆ

*Abstract.* Some refinements of the Jensen–Mercer inequality for operators are presented. Obtained results are used to refine some comparison inequalities between power and quasi-arithmetic means for operators.

*Mathematics subject classification (2000):* 47A63, 47A64.

*Key words and phrases:* Jensen–Mercer inequality for operators, index set function, power means, quasi-arithmetic means.
