

## BOUNDEDNESS AND COMPACTNESS OF A CLASS OF MATRIX OPERATORS IN WEIGHTED SEQUENCE SPACES

R. OINAROV AND A. TEMIRKHANOVA

*Abstract.* We study the problem of boundedness and compactness of operators of multiple summation with weights in weighted sequence spaces.

*Mathematics subject classification (2000):* 39B82, 44B20, 46C05.

*Keywords and phrases:* Weighted sequences, Matrix operators.
