AN ESTIMATE OF THE COMMUTATIVITY OF $C^2$-FUNCTIONS AND PROBABILITY MEASURES

TAKESHI MIURA, TAKAHIRO HAYATA AND SIN-EI TAKAHASI

Abstract. In [1], an estimate of the difference of the two sides of the Jensen’s inequality with respect to probability measures was given, which is a special case of a Cauchy type mean value theorem (cf. [3, 4, 5]). Without Cauchy type mean value theorem, we give an estimate of the commutativity of $C^2$-function and probability measure. The purpose of this paper is to determine the equality condition for the estimate above.

Keywords and phrases: Jensen’s inequality, mean value theorem.
