

## COMMON FIXED POINT THEOREMS FOR FOUR MAPPINGS IN TVS-VALUED CONE METRIC SPACES

MUJAHID ABBAS, YEOL JE CHO AND TALAT NAZIR

*Abstract.* The existence of coincidence points and common fixed points for four mappings satisfying generalized contractive conditions without exploiting the notion of continuity of any map involved therein, in a TVS-valued cone metric space is proved. These results extend, unify and generalize several well known comparable results in the existing literature.

*Mathematics subject classification (2010):* 47H10, 54H25, 54C60, 46B40.

*Keywords and phrases:* Coincidence points, common fixed points, TVS-valued cone metric space.
