DUNKL–WILLIAMS TYPE INEQUALITIES FOR OPERATORS

YOUYI JIANG AND LIMIN ZOU

Abstract. The purpose of this paper is to discuss inequalities related to operator versions of the classical Dunkl-Williams inequality. We obtain refinements of some operator inequalities presented by Zou, He and Qaisar [Linear Algebra Appl. 438 (2013) 436–442].

Keywords and phrases: Dunkl-Williams inequality, operator inequality, absolute value operator.
