

GENERALIZED MARCINKIEWICZ–ZYGmund TYPE INEQUALITIES FOR RANDOM VARIABLES AND APPLICATIONS

PINGYAN CHEN AND SOO HAK SUNG

Abstract. It is shown that if the higher order Marcinkiewicz-Zygmund type inequality holds, then some generalized Marcinkiewicz-Zygmund type inequality holds, in particular, the lower order Marcinkiewicz-Zygmund type inequality also holds. No additional assumptions are made on the random variables. As applications, a generalized C_r -inequality and a weak law of large numbers for pairwise independent random variables are obtained.

Mathematics subject classification (2010): 60F15.

Keywords and phrases: Marcinkiewicz-Zygmund inequality, moment inequality, C_r -inequality, weak law of large numbers.
