

A REMARK ON “INEQUALITIES FOR THE FROBENIUS NORM”

DAESHIK CHOI

Abstract. In a recent paper, a refinement of Heinz inequality was shown and compared with an inequality obtained by Kittaneh and Manasrah. This paper shows that the refinement is a trivial result and that the comparison is not proper.

Mathematics subject classification (2010): 15A15, 15A42, 15A60.

Keywords and phrases: Positive semidefinite matrix; Heinz inequality; Frobenius norm.
