

EXTENSION OF DETERMINANTAL INEQUALITIES OF POSITIVE DEFINITE MATRICES

XIAOHUI FU, YANG LIU AND SHUNQIN LIU

Abstract. In this short note, we extend some known determinantal inequalities of positive definite matrices to a larger class of matrices, namely, matrices whose numerical range is contained in a sector.

Mathematics subject classification (2010): 47A63, 15A45.

Keywords and phrases: Determinantal inequality, positive definite matrices, numerical range, sector, determinants of block matrices.
