SOME NEW OPIAL–TYPE INEQUALITIES

Ilko Brnetić and Josip Pečarić

Abstract. In [3] Agarwal, Pečarić and Brnetić improved many known Opial-type inequalities in n independent variables. Here we shall use the same basic idea as used in [3] to improve some Opial-type inequalities in one variable proved by Agarwal and Pang [1]. We shall also make some remarks on the results proved in [3] and give some simple generalizations.
