

A NOTE ON GENERALIZED HERONIAN MEANS

WALTHER JANOUS

Abstract. In this note several inequalities for generalized Heronian Means of two numbers are proved. These means are defined for the first time in this paper and they are compared with some well-known means. All inequalities are best possible.

Mathematics subject classification (2000): 26D20, 26E60.

Key words and phrases: Generalized Heronian means, arithmetic mean, geometric mean, power means, identric mean.
