

POSITIVE INCREASING SOLUTIONS OF QUASILINEAR DYNAMIC EQUATIONS

E. AKIN-BOHNER

Abstract. We consider quasilinear dynamic equations whose solutions are classified into disjoint subsets by certain integral conditions. In particular, we investigate the asymptotic behavior of all positive increasing solutions of quasilinear dynamic equations.

Mathematics subject classification (2000): 39A10.

Key words and phrases: measure chains, time scales, quasilinear equations, half-linear equations, Sturm–Liouville equations.
