

## SOME STABILITY RESULTS FOR SET INTEGRO–DIFFERENTIAL EQUATIONS

BASHIR AHMAD AND S. SIVASUNDARAM

*Abstract.* We study the stability criteria for set integro-differential equations in terms of Lyapunov-like functions. Sufficient conditions for the stability of the null solution of set integro-differential equations are presented.

*Mathematics subject classification (2000):* 34K20, 34D20, 45J05.

*Key words and phrases:* set integro-differential equations, stability.
