

## SOME INEQUALITIES OF DIFFERENTIAL POLYNOMIALS II

JUNFENG XU, HONGXUN YI AND ZHANLIANG ZHANG

*Abstract.* In this paper, we consider the value distribution of the differential polynomials  $f^2 f^{(k)}$  – 1 where  $k$  is a positive integer, and obtain some estimates only by the reduced counting function. Our result answers a question in (Some inequalities of differential polynomials, Mathematical Inequalities and Applications, **12**, 1(2009), 99–113) completely.
