

## DIFFERENTIAL INEQUALITIES FOR IMPLICIT PERTURBATIONS OF FIRST ORDER DIFFERENTIAL EQUATIONS WITH APPLICATIONS

BAPURAO C. DHAGE

*Abstract.* In this paper, some fundamental differential inequalities for an implicit perturbation of nonlinear first order ordinary differential equations have been established. Our results of this paper generalize some well-known results on ordinary differential inequalities for unperturbed first order nonlinear differential equations.

*Mathematics subject classification (2010):* 34K10.

*Keywords and phrases:* Differential inequalities, implicit perturbations.
