

ON A FORMULA FOR THE n TH DERIVATIVE AND ITS APPLICATIONS

VERA ČULJAK AND MIRKO S. JOVANOVIĆ

Abstract. In this paper we obtain a formula which involves the n th derivative of the first order divided difference and a corresponding inequality for functions whose $(n + 1)$ -th derivative belongs to a L^p space. These results are a generalization of the results from [1] and [2]. Finally, some examples are given.

Mathematics subject classification (2010): Primary 26D15, Secondary 26D99.

Keywords and phrases: Hölder inequality, L^p space.
