INTERPOLATION OF POSITIVE OPERATORS
ON VARIABLE LEBESGUE SPACES

DAVID CRUZ-URIBE, SFO

Abstract. We prove an interpolation theorem for integral operators with positive kernel on the variable Lebesgue spaces. As an application we show that the set of exponents for spaces on which the Hardy-Littlewood maximal operator is bounded is convex.

Mathematics subject classification (2010): 42B20, 42B25.
Keywords and phrases: variable Lebesgue spaces, interpolation.
