

LYAPUNOV-TYPE INEQUALITY FOR n -DIMENSIONAL QUASILINEAR SYSTEMS

XIAOJING YANG, YONG-IN KIM AND KUEIMING LO

Abstract. A new version of the well-known Lyapunov-type inequality for n -dimensional quasilinear systems is obtained. The results of this paper generalize some previous results on this topic.

Mathematics subject classification (2010): 34A40.

Keywords and phrases: Lyapunov-type inequality, quasilinear system.
