LYAPUNOV–TYPE INEQUALITIES FOR TWO CLASSES OF DIRICHLET QUASILINEAR SYSTEMS

AYDIN TIRYAKI, DEVRIM ÇAKMAK AND MUSTAFA FAHRI AKTAŞ

Abstract. In this paper, we establish several new Lyapunov-type inequalities for two classes of Dirichlet quasilinear systems, which almost generalize and extend all related existing results in the literature. As an application, we also obtain sharp lower bounds for the eigenvalues of corresponding systems.

 Keywords and phrases: Lyapunov-type inequalities; Quasilinear systems; \((p_1,p_2,...,p_n)\)-Laplacian; Lower bounds; Half-linear differential equation.
