HAUSDORFF OPERATOR IN LEBESGUE SPACES

Rovshan Bandaliyev and Przemysław Górka

Abstract. We study the boundedness of the Hausdorff operator in various types of Lebesgue spaces, e.g. weighted spaces, variable exponent and grand Lebesgue spaces. The results are illustrated by a number of examples.

Mathematics subject classification (2010): 28C99, 46E30, 47G10.

Keywords and phrases: Hausdorff operator, weighted Lebesgue spaces, quasi-Banach spaces, variable exponent Lebesgue spaces.
