MODEL SPACES AND TOEPLITZ
KERNELS IN REFLEXIVE HARDY SPACE

M. C. Câmara, M. T. Malheiro and J. R. Partington

Abstract. This paper considers model spaces in an H_p setting. The existence of unbounded functions and the characterisation of maximal functions in a model space are studied, and decomposition results for Toeplitz kernels, in terms of model spaces, are established.

Mathematics subject classification (2010): 47B35, 30H10.

Keywords and phrases: Model space, Toeplitz operator, Hardy space, near invariance.
