

## AN EXTENSION OF A GEOMETRIC INEQUALITY OF FINITE POINT SET ON A SPHERE IN THE CONSTANT CURVATURE SPACE

HANFANG ZHANG

*Abstract.* In this paper, we first prove an algebraic inequality, then use it obtain an extension of a geometric inequality in the  $n$ -dimensional constant curvature space.

*Mathematics subject classification (2000):* 52A40, 51M05.

*Key words and phrases:* inequality, finite point set, circumradius.
