

SOME RESULTS ON $(\rho, \mathbf{b}, \mathbf{d})$ -VARIATIONAL INEQUALITIES

SAVIN TREANȚĂ

Abstract. In this paper, by using a dual gap functional and some working hypotheses, the solution set is investigated for a variational-type inequality governed by $(\rho, \mathbf{b}, \mathbf{d})$ -convex path-independent curvilinear integral functional.

Mathematics subject classification (2010): 49J40, 49J50, 65K10, 26B25, 90C30, 49K20.

Keywords and phrases: Continuous optimization, extended variational-type inequality, $(\rho, \mathbf{b}, \mathbf{d})$ -convex path-independent curvilinear integral functional.
