ON THE STABILITY OF CUBIC BI-DERIVATIONS ON BANACH ALGEBRAS

DAMLAYILMAZ, HASRET YAZARL AND CHOONKIL PARK*

Abstract. In this paper, using fixed point method, we investigate the stability and also the superstability of cubic bi-derivations on Banach algebras.

Mathematics subject classification (2020): 39B72, 47H10, 47B47.

Keywords and phrases: Hyers-Ulam stability, cubic bi-derivation, Banach algebra, fixed point method.
