

## ON RABIER'S RESULT AND NONBOUNDED MONTGOMERY'S IDENTITY

ASFAND FAHAD, JULIJE JAKŠETIĆ AND JOSIP PEČARIĆ

*Abstract.* In this paper, we use generalized Montgomery's identity, given in [7], to give improvement of result from [9] for the class of  $n$ -convex functions.

*Mathematics subject classification (2010):* 26D10, 26D15, 26D20.

*Keywords and phrases:* Convex function,  $n$ -convex functions, Steffensen's inequality.
